Texas Green Industry
Workers' Compensation
Group Discount Program

TexasMutual[®]
Insurance Company

You're great at growing green stuff – what about saving it? With workers' comp group discount programs, it's easier than you think.

Don't go out on a limb

Workers' comp is the only insurance that provides medical and income benefits for injured workers *and* legal protection for employers. State law allows employers in similar businesses to buy their workers' comp coverage as a group, with approval from the Texas Department of Insurance.

By joining the TGI group discount program, also known as a purchasing group, your company will retain its own experience modifier, receive a premium discount based on the group's total premium, and be eligible for potential individual and group dividends.* Eligible policyholders can earn an additional discount by participating in Texas Mutual Insurance Company's workers' comp health care network.

Branching out

TGI is open to qualifying wholesale and retail nurseries, landscape contractors, growers, irrigation contractors and other green industry businesses. Any licensed Texas agent can submit qualifying clients for group membership. For a list of qualifying class codes, visit texasmutual.com, or call (800) 859-5995.

Reap what you sow

TGI chose Texas Mutual Insurance Company, the state's leading provider of workers' comp insurance, to underwrite the group. TGI members benefit from claim and loss prevention services, including a safety plan developed specifically for green industry businesses.
