

FREE E-LEARNING FOR TEXAS MUTUAL POLICYHOLDERS

Make safety a priority with engaging online training courses.

Assign courses

With over 300 courses to choose from, select the training that is right for your business, assign to individuals or groups of employees and set realistic deadlines. Courses average 20 minutes per session, so our training is easy to fit into a busy schedule.

Monitor progress

Each interactive training session is accompanied by a quiz at the end, with periodic check-ups throughout to help your employees learn and stay engaged. You'll see the employee's score after the quiz has been completed.

Maintain training records

With e-Learning, you can post reminders and check completion statuses all in one convenient place.

Our e-Learning also provides free recordkeeping to assist with your training records.

READY TO START USING E-LEARNING IN YOUR WORKPLACE?

Log in to texasmutual.com and click the Safety tab to get started.

For further assistance, call Texas Mutual's safety services support center at 844-WORKSAFE (967-5723).
