

Get the most out of your  
**TEXAS MUTUAL  
POLICY**

Having a policy through Texas Mutual is much more than just protection. We're here to support you and make your business safer and stronger. Here's what you need to know to make the most of all that Texas Mutual offers:

**Reporting injuries**

We recommend you report injuries the same day they happen, if possible. The sooner an injury is reported, the more likely your workers will get the care they need. The law does allow employers up to eight days to report. To report an injury, visit [texasmutual.com](http://texasmutual.com) or call **(800) TX-CLAIM (892-5246)**.

**Access your account online**

Texas Mutual Online (TMO) is your tool for accessing claim details, dividend information, loss run reports, billing and payment information and free safety resources. Create an account by visiting [texasmutual.com](http://texasmutual.com) and selecting Login.

**Saving with our WorkWell, TX health care network**

The benefits of our health care network, WorkWell, TX, include keeping claim costs low, receiving a network discount and getting injured workers back on the job sooner. Your employees must receive treatment from in-network providers if you enroll in our network. If not yet enrolled, speak to your agent about joining.

**Finding a doctor**

You can find a doctor by visiting [texasmutual.com](http://texasmutual.com) or downloading our Texas Mutual Provider Directory mobile app. Search for urgent care, treating physicians, pharmacies or specialists. You can also email, text or print search results.

**Making safety a priority**

We employ the state's largest workplace safety team to help you prevent workplace injuries. Our safety services support center can provide safety resources for your business, help identify safety hazards and more. Log in to TMO to access the free safety resource catalog and e-Learning courses. Email us at [safety@texasmutual.com](mailto:safety@texasmutual.com) or call **844-WORKSAFE (967-5723)**.

**Earning dividends**

When you chose Texas Mutual, you became a policyholder owner of the company. This includes the potential to earn a dividend based on your commitment to safety and loyalty to Texas Mutual. Since 1999, we've paid our policyholders \$3.4 billion in dividends. Dividends are based on performance and therefore are not guaranteed. As a new policyholder, you can even earn an early qualifier dividend. Visit [texasmutual.com/ownershippays](http://texasmutual.com/ownershippays) to learn more.

**Contact us**

For more information, visit [texasmutual.com](http://texasmutual.com) or speak to your agent. You can also email us at [information@texasmutual.com](mailto:information@texasmutual.com) or call **(800) 859-5995** from 8 a.m. to 5:30 p.m. Central time.
