

2022 Community Funding Guide

Texas Mutual Insurance Company

About our 2022 funding commitment

At Texas Mutual, we care for hardworking Texans. We do that every day by protecting businesses, promoting safe working environments and helping ensure Texas workers get home safely to their families. Our mission is to create a stronger, safer Texas—and it’s a job we take seriously. That’s why we’ve invested nearly \$50 million into our communities since 2016 and continue to commit our resources to ensure meaningful change for current and future Texans.

In 2022, Texas Mutual is committing \$7 million through two Request for Proposal (RFP) initiatives. The first RFP for **Generational Learning** opens on April 18 and will seek to support working families to ensure they have the resources they need to achieve economic security. This funding cycle will invest in nonprofit organizations that are focused on health and wellness and are expanding access to child care. We will also consider those that are supporting clients by providing or coordinating services so that they are receiving integrated care that addresses multiple barriers. The second RFP for **Workforce Development and Safety Training** opens on August 15 and will invest in upskilling, apprenticeships and safety training programs.

We believe the best thing about Texas is how Texans rally to support each other in times of need. Whether it’s a hurricane, winter storm or a pandemic — taking care of each other is at our core. As a company that exclusively does business in this great state, Texas Mutual and its employees share in that philosophy. That’s why we have an unwavering commitment to creating stronger, safer and more resilient communities.
